

PHIGHT BACK AGAINST PHISHING

Does it link to sites with slight misspellings?

(Goggle, Mircosoft)

**If so,
don't reply**

Is it sent from a public email address?

(Gmail, Yahoo, Hotmail)

**If so,
don't click the link**

Does it have an attachment?

**If so,
don't download or open it.**

Does it request personal information?

(User name, password, phone)

**If so,
don't reply**

When you mouse over the link, does it seem suspicious?

**If so,
don't click the link**

Does it sound urgent?

(Your password expires in 24 hours!)

**If so,
don't click or reply**
